Rule Statement and Reason for Rule

Texas A&M International University (TAMIU) has a vital interest in maintaining a healthy and safe environment on campus. To that end, it is the position of TAMIU to restrict smoking and tobacco use and prohibit all forms of vaping (e.g., e-cigarettes, e-cigars, etc.) within and surrounding its facilities in a manner that protects the health of employees, students, and visitors and minimizes air quality concerns related to its facilities.

The purpose of this Rule is to establish provisions for the restriction of smoking and tobacco use and the prohibition of vaping on the TAMIU campus.

Procedures and Responsibilities

1. DESIGNATED AREAS FOR SMOKING AND TOBACCO USE

- 1.1 Designated areas for smoking and tobacco use have been established on campus and are located along the outer perimeter of the campus (see map below). Smoking and tobacco use is limited to these designated areas.
- 1.2 The Office of Environmental Health and Safety shall ensure that receptacles for the disposal of cigarette and cigar stubs are provided in designated areas.

2. PROHIBITION OF VAPING

- 2.1 Vaping and the use of electronic cigarettes have been associated with serious illness and deadly lung disease. In seeking to protect the health and safety of students, faculty, and staff, The Texas A&M University System has banned all forms of vaping (e.g., e-cigarettes, e-cigars, etc.) on all System campuses, which includes all TAMIU facilities and parking lots.

3. ENFORCEMENT

This Rule relies on the thoughtfulness, consideration, and cooperation of TAMIU employees, students, and visitors. It is the responsibility of the entire campus community to observe the provisions of this Rule. Compliance with this Rule will be monitored by the University Police Department, and non-compliance may be subject to the issuance of citations.
